

Statement from John Lee Jr., La Plata Electric Association District 2 board of directors candidate:

I am running for District 2, LPEA Board of Directors to represent our rural communities. LPEA has a very good educational and orientation program for new directors. I plan to understand how the inner workings feather into board responsibilities. Renewable energy is coming to LPEA in the near future, in fact right here in district 2, a site for solar, is a prime contender. I have been on senior staff and command positions in the Army, I will make educated decisions for LPEA members and not for special interests or agendas that serve few. Thank you, John Lee Jr.
